

FORGET ME NOT FIELDS

NATURAL BURIAL GROUND

OPTIONS FOR OTHER FAMILY MEMBERS

Advice if you're interested in multiple ashes interments within your ashes plot.

ASH PLOT DIMENSIONS

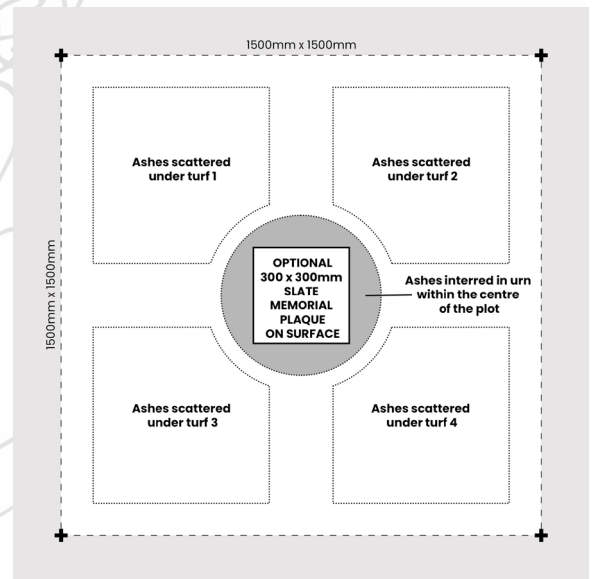

Each ashes plot purchased at Forget Me Not Fields measures 1500mm x 1500mm and within that plot only one set of ashes in a biodegradable urn may be interred in the centre. We do however, have some options for additional family members to use the same plot provided ashes are scattered under the turf instead of within an urn if that's an option you'd like.

ASH PLOT LAYOUT

Each ashes plot purchased at Forget Me Not Fields measures 1500mm x 1500mm and within that plot only one set of ashes in a biodegradable urn may be interred in the centre. You can accommodate up to 4 additional ash remains within the same plot if scattered under the turf in your plot. The under-the-turf method basically means that the turf in that section is lifted, ashes can be scattered then the turf is replaced on top again.

A ceremony can still be held if desired when ashes are scattered under the turf. In addition the ashes can be scattered under the turf without disturbing the central burial urn or optional slate memorial plaque.

This option means your plot is available for use at different times of need whilst still being respectful of those already at rest. Remains can enter the plot in any order, for example you may wish to scatter your parents under the turf in your plot now whilst still allowing a place for yourself in the centre at a later date.

MEMORIAL PLAQUES

If you wish to memorialise a plot then you have the option to purchase a slate plaque measuring 300 x 300mm which is recessed into the ground at the centre of the plot. The burial ground is being developed to encourage a natural landscape and look therefore the erection of any monuments, vases, kerbs, fences, flower beds, railings or any other decoration is not allowed. For the same reason we can only allow one plaque per plot.

When it comes to a plot with a number of family members within it then do bear in mind that you won't be able to fit much information about each person as you may want to. You still have the option to purchase another plot of course if you'd like to feature much more full information on the plaque.

PET OWNERS

The same options are available for the ashes of pets too. Please let us know in advance if you would like to share your plot with your pets though as we have a separate area for this.

We hope that this information is useful to you and provides some more details about the options available to you.
